

CORK SAILBOATS

AUGUST TAKE AND MAKE CURBSIDE CRAFT

CREATE YOUR CORK SAILBOAT!

1. Line up three popsicle sticks on top of the corks and glue. Make sure to leave a little space between sticks for the sail. Allow the glue to dry before continuing.
2. Poke the toothpick through the foam sail.
3. Push the toothpick with the sail into the cork. Tada! A sailboat that floats on the water!

FAB VOCAB!

Nautical: Anything involving ships, sailing and sailors.

Navigation: the science of getting ships, aircraft, or spacecraft from place to place.

Bow/Stern: The bow of the boat is the front and the stern of the boat is the back.

Windward: The side of the boat closest to the wind.

Leeward: The side of the boat furthest from the wind.

DID YOU KNOW?

There have been depictions of sailboats dating back to 5500 BCE. Animal skins were used as sails for the earliest boats and rafts. The Egyptians and other ancient people wove reeds together in mats to make sails, but the Egyptians were also the first to make cloth sails as early as 3300 B.C.

SONGS

Row, Row, Row Your Boat

Row, row, row your boat
Gently down the stream.
Merrily, merrily, merrily
Life is but a dream.
(sing in rounds of 3)

Have You Ever Seen a Sailboat?

Have you ever seen a sailboat, a sailboat, a sailboat.
Have you ever seen a sailboat,
Waiving it's sail?
Wave this way and that way
And that way and this way.
Have you ever seen a sailboat w
Waving it's sail.
